A monopoly (from Greek μ , m ó nos, 'single, alone' and 'to sell') exists when a specific person or enterprise is the only supplier of a particular commodity. This contrasts with a monopsony which relates to a single entity's control of a market to purchase a good or service, and with oligopoly and duopoly which consists of a few sellers dominating a market.

Origins. Microeconomics descends philosophically from Utilitarianism and mathematically from the work of Daniel Bernoulli.. Utilitarianism. Utilitarianism as a distinct ethical position only emerged in the 18th century, usually credited to Jeremy Bentham, but there were earlier writers, such as Epicurus who presented similar theories. Bentham's An Introduction to the Principles of Morals and ...
